

# Template – Test Smells Refactoring Experiment

Name: Roberto de Oliveira Coutinho

Project: commons-math

I'm currently working on refactoring the following test smell:  
magic number.

My main difficulties in removing these anomalies were:  
Entender do que se tratava a assertiva.

I'm using the following refactoring methods to remove test smells:  
Adicionei variáveis descritivas com os valores das assertivas e usei essas variáveis no lugar dos números.

From (0 to 10), how harmful is this test smell to the system? It's because ?  
8, dificulta a compreensão do teste.
